

careLearning Login Instructions

You should have an email notifying you that you have enrollments to complete and supplying you with your Student Name (Username) and Password along with detailed instructions of where to go to login to careLearning.

From the JRMC website, you will click on “Login”, and then click on “Employee”. From the Employee page, you will click on “careLearning” (see below).

Click on
careLearning

Enter your
Student ID and
Password then
click Login

Title	Completed	Grade	Hours	Credit	Credit Type	Status	
Greater Delta Alliance Demographics Survey			0:00			Registered	
Moving, Lifting and Repetitive Motion			0:00			Registered	
Workplace Violence Prevention			0:00			Registered	

Click on Enter Classroom

careLearning Login Instructions

The screenshot shows the careLearning interface. At the top left is the logo "careLearning" with the tagline "eLearning. Real-World Advantages." Below the logo is a navigation menu with options: "Main Menu >", "Display", "Mail >", "Help >", "Log Out >", "ROLES ▾", and "Student <". The main content area is titled "Student Main Menu" and contains a welcome message: "Welcome to your Student Home Page, Cynthia Belvedresi. Please select the activity you would like to perform." Below the message is a "Classrooms" section with a dropdown arrow. It lists three classrooms, each with a "Go" button: "Greater Delta Alliance Demographics Survey Classroom Go", "Moving, Lifting and Repetitive Motion Classroom Go", and "Workplace Violence Prevention Classroom Go". A blue oval callout box with yellow text is overlaid on the "Go" buttons, stating: "Click 'Go' to start your courses".

Once you are logged in to the system, depending on your level of security in the system, you will have certain functions available to you. To complete your course assignments, click on "My Courses". You will also have the ability to print your own transcripts by clicking on the selection titled "My Transcript". Some selections may not have any information just yet, such as the "My Events", "Event Calendar", and "My Event Certificate" but that will change as more courses are assigned to you and as events are added to the calendar. Corporate Education will keep you informed as more features are added.

A few things to note with the new careLearning system:

- Username & Student ID are the same
- Usernames and Passwords are automatically generated from the system.
- Your contact for problems you may encounter with your login will be Cindy Belvedresi (3605) or Lisa Duke (7195) in Corporate Education.

careLearning Login Instructions

- careLearning is replacing Inquisiq and the login for Inquisiq will be going away very soon, so if you have incomplete assignments in Inquisiq, login and complete those assignments ASAP.
- You will have 3 assignments initially to complete:
 - Greater Delta Alliance Demographics Survey
 - Workplace Violence
 - Moving, Lifting and Repetitive Motion
- You will always receive your assignment through your work email (jmail). For those of you who have MS Outlook, it will come to your Outlook.
